## THE RIVER BALL

### *Fully digital hospital beckons*

BY AMORYN ENGEL

The Humber River Hospital Foundation recently hosted The River Ball: Impressions by the River at the Paramount Conference and Event Centre.

Humber River Hospital serves a catchment area of more than 850,000 people in the northwest Greater Toronto Area. It is affiliated with the University of Toronto and Queen's University Medical Schools. Currently, the Humber River Hospital is building North America's first fully digital hospital, one that the organization plans to make a lean, green and technological showcase.

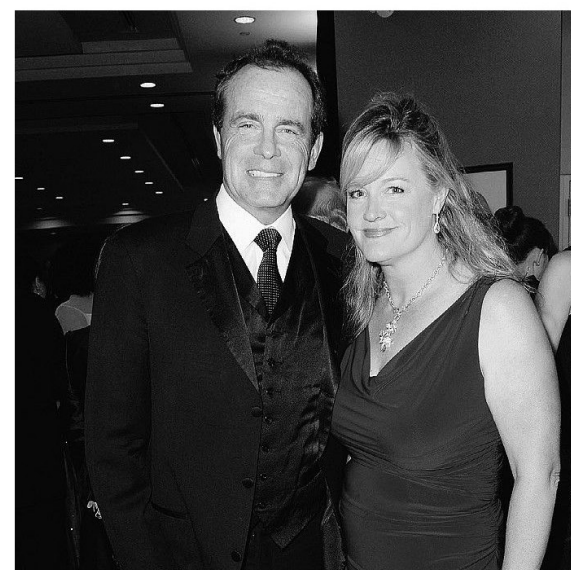

The new hospital will be a place where patients can participate in all aspects of their care. In partnership with their teams of care providers, patients and families will take advantage of the technologies available.

Legendary comedian **André-Philippe Gagnon** lent his talent to the event as did track and field icon **Donovan Bailey**. "I credit my incredible care team, including Dr. (Anthony) Mascia, for my treatment, rehabilitation and bringing me back to world class competition," said Bailey.

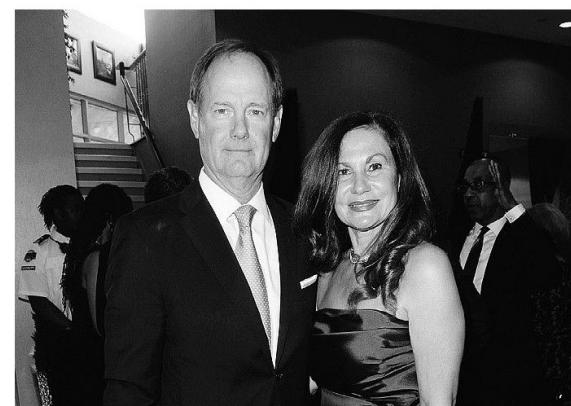

The "No Limits" award was given to **Jack** and **Pat Kay** for their leadership and support of the hospital. Currently, Jack is the co-chair of the campaign for the new Humber River Hospital. Others lending support included **Rod Black**, TSN and CTV; **Barry Sherman**, Apotex founder, and **Honey Sherman**; **Leslie Dan**, Canadian Generic Pharmaceutical; **Michael Deluce**, Porter Airlines, and wife **Lalla Deluce**; **Rosanna Magnotta**, Magnotta Wineries; **Ian Furlong** and **Desiree Perruzza**; **Terry Leon**, Leon's Furniture; **David Wedemire**, RE/MAX Ultimate Realty and luxury brand adviser; and event co-chairs **Cathy Baxter** and **Mary Mautl**, Bell Canada.

All proceeds support the \$225-million fundraising campaign to build and equip the new Humber River Hospital — the first new hospital built in Toronto in 25 years — set to open Oct. 18, 2015.
